The all-new Aura Vol. 3 presets that work with all **versions of Lightroom, including desktop and Camera Raw** can bring a bit of shine and glam to your photos! This bundle comes with a set (15) (!) presets. The bundle is a breeze to use thanks to a simple application to a range of lighting situations (indoor outdoors and intense sunlight, harsh flashlight, sunset artificial light, etc.). You don't just create stunning colors however, you can also edit directly within Lightroom using 5 brand-new retouch brushes. They are also included in this bundle! Check out some examples of before and after below.

How does it work?

- 15 (!) Lightroom presets (10 color and 5 B/W)
- 5 new Retouch brushes (caramel skin, red, lace intense soft skin + soft skin, brighten, and darken) for your Lightroom-only touch-up?
- 2 modifier (add/reduce grain)
- 1 installation manual
