The **My YouTube Channel** is a customizable introduction template designed for a 20-second duration.

How to design your project logo cursor from the media cursor in After Effects?

You can use "My YouTube Channel" to design your project.

It features six text placeholders, four media placeholders, and one logo placeholder, all in full HD resolution (1920×1080). The template includes color control options, and a video helper, and is designed for easy editing and fast rendering. Note that music is not included.

Package information

This After Effects project file, compatible with CC and CS6, was published on 29 May 2024 and last updated on the same date.
