World Map Connetction Kit - AE Project VH-11602298: World Map Pro Kit is created to create stunning videos on the world map easily and quickly. It is easy to create simple and complex map animations.

They reduced rendering time due to the map templates made by using the Script. In general, invisible layers can be activated through the possibility of their use within the Project. Even if you do not use the layers, they affect the rendering speed, and maps you've made using Script aren't have the same effect.

The new version of the program has the issues causing camera Rig problems with installation for Mac users fixed, and the procedure is made more accessible.
