Photo Frames (Videohive 8862762) - AE Project

2025-02-10 16:47:02　　label 我要反馈　　下载页面

This is a new project that can be used for your video or pictures that is fully designed in AE. No prerendered elements.

15 placeholders to place your photos/videos as well as text.

It's always user-friendly, you just upload your video or photos each in a separate frame and write your own text in each of the frames. Music and fonts are available to download for free by clicking the hyperlink in the readme.txt I used music by the author pinkzebra that is perfectly suited to this particular project. No additional plugins are required.

Sound FX is included.
