Crafted to enhance Nirav Patel's work and colour tones, The **Lotus LUT Pack** is designed to elevate cinematic storytelling with broad dull ranges. The LUTs are built for weddings, commercials, and editorial pieces. Deep blacks and shadows are sustained while natural colours are balanced for a wholesome visual experience.

- Cinematic Aesthetic:** A profoundly evocative look with a gentle teal/orange twist.
- Lighting Adaptability:** Can function with artificial light indoors and standard golden hour light.
- Balanced Color Palette:** Blush skin tone, cool white, and blacks/shadows are all retained.
- Lotus 01:** Soft skin tones and true greens for diverse settings.
- Lotus 02:** Famous for deep blue highlights and contrast, now works for emotive storytelling.
- Lotus 03:** Aesthetic of film deserts during dawn with green shadows, copper highlights, and balance to create orange.
- Lotus 04:** For adept and sleek looks, polished warm highlights with cool white Leser.
