

Super Sale Fashion Opener (Videohive 42277796) - AE Project

2025-02-10 16:42:17 label 我要反馈 下载页面

**Super Sale Fashion Opener - AE Project VH-42277796:** Make a video sale promo in 5 min right now! Ideal for mall displays promotion of a new product.

Additionally, you can make intriguing video promos for typography or mini-advertisements for brand-new clothes and sports, or even a Fashion demo reel. Place your images or video clips, and then type your text. You can alter the colors of any component.

Create fresh, vibrant, contemporary promo videos for your vlog or YouTube channel. Find a video in only a few clicks effortlessly! It is perfect for creating women's channel promos or fashion blog intros.

Perfect for promotional videos to promote fashion sales and television shop slideshows with high-end design or even create videos of your merchandise in video display displays at stores or malls! Perfect for magazines or TV promotions, clothes sales, promotional dresses, or the tv market's original cinematic opener.

- Adobe After Effects CS 5.5, 6 CS, and CC 2013...CC 2022 or greater software
- FullHD 1080p (1920x1080) resolution / 29.97 fps available

- 27 options for placeholders to media (photos or videos of items that use the alpha channel)
- 21 editable titles that can be edited (price or discount, the product's name, etc.)
- One logotype
- Font used - not included (links within PDF)

Here are a few instructions that will help:

Folder " Edit "

Here you can add photo and video files for your project . Drag your picture into the comp, then resize it  
It also allows you to change all text composition

Color Control

Open the layer property "Control Project" in the Project. Here you can easily replace the color of all text layers

Render your video

Double-Click on the RENDER COMP to open it in the timeline.  
After that, go to Composition – Add to Render Queue and the Render Queue will open in the timeline window with the new Render Job added to it.

Make sure the Render Settings are set to Best Settings. Click on whatever is written right to the Output Module and a new window will open up. In that window, you can change the codec and file format. Also, if you have used sound in this project, make sure you activate Audio Output at the bottom of that new window. Else your video will be muted.  
Last, click on whatever is written right to the "Output to" text and set the folder where you want your video to be saved in.  
When you have set everything to your needs, click Render and wait for it to finish.  
Depending on the project as well as your computer specs, this can take some time.
