Unreal Engine - Orc Warlock (Modular): Introducing the Orc Model, a versatile character with a plethora of customization options for your game development needs. This model offers extensive features to bring your orcish characters to life:

- Three Skin Colors: Each with its own unique tattoo design.
 - Modular Clothing: Mix and match clothing pieces to create unique looks for your orcs.
 - Epic Skeleton: Ensures compatibility with UE4 animations and rigs.
 - Simulated Clothing Physics: Enjoy realistic movement and interaction with clothing items.
 - Facial Expressions: Morph Targets and Blendshapes enable dynamic facial animations for expressions and conversations.
 - Live Stream Face Mockup: Perfect for streaming or creating animated conversations.
 - PBR Metal/Roughness Textures: High-quality textures including normal, metallic, roughness, and albedo maps.
 - Nine Sets of Textures: Body, Head, Hair, Eyes, Weapons, Cloth, Accessories.
 - Fully Modular: Add or remove parts as needed, allowing for customization and progression as the character levels up.
 - Additional Skeleton Bones: Including bones for belts, chains, and skulls for added realism and customization.
 - Engine Compatibility: Supports both UE4 and UE5 engines, with specific instructions for handling cloth simulation in UE5.
-
- Blendshapes / Morph Targets / Facial Expressions: Bring your orc's face to life with dynamic expressions.
 - Imitation Wind Fabric: Enjoy realistic fabric movement with simulated wind effects.
 - Physics of Circuits and Skull Jaws: Enhances realism and immersion in your game world.
 - Third-Person Character Animations Included: Ready-made animations for seamless integration into your game.
 - Change Eye and Hair Color: Customize your orc's appearance further with adjustable eye and hair colors.
 - Transparency Map: Prevents clipping issues by adjusting body transparency, ensuring clothing fits correctly.
 - Three Skin Options: Each with its own tattoo design and weapon variation.
