Present the gorgeous 3D model in your project.

The clean and stylish character lip-syncs, and the presentation is synchronized according to the voice you use. The flexible movements and the images displayed by the characters create an impressive pull on viewers. This complete 3D character can be easily integrated into your project. It requires only After Effects.

Change the coloring of the character in the way you'd like. Create natural-looking character actions by combining motion and making the lipsyncing and timing in accordance with the audio of your voice. The entire process can be described as Simple, Easy, Fast!

Be aware of the characters that are in different styles starting today. The line-up will keep going.
