Twig & Olive Photography – Film Love V1: Get ready to immerse yourself in the nostalgic charm of "old school films" like Fuji Pro 400h and Kodak Portra with Twig & Olive's' Film Lov Vol I. These Lightroom and ACR presets meticulously replicate the essence of traditional films—grainy yet balanced, contrasty with deep, rich blacks, and infused with honey-like undertones in the highlights. The finishing touch is a profound matte effect. Tailored for images captured in open shade or during golden hour, these presets bring the timeless allure of film to your digital portfolio.
