Blender Market - Node Fx 1.0 (Node Effect) Procedural Shaders:

NodeFX is a powerful tool for enhancing model materials through procedural shaders.

It features over 35 preset shaders, allowing for quick and impressive effects with a single click.

The highly customizable addon includes an Assets Browser for layering multiple effects, and it supports keyframe animation for dynamic visual effects.

The presets library offers a variety of effects, including rust, moss, dust, holographic projection, fire, lava, and gemstones, providing extensive creative possibilities for model enhancement.
