Unreal engine - Audio Reactive FX 02 v5.3: Introducing Audio Reactive FX 02, a collection of audio-reactive Niagara particle effects and additional Niagara systems designed for music videos. This asset pack provides a diverse range of effects that react dynamically to audio, perfect for enhancing live music events or creating visually captivating rendered music videos.

With 90 Niagara effects included, the pack is built modularly, offering a plethora of Niagara modules, materials, and functions that can be easily reused and customized. Everything is procedurally generated, allowing for seamless replacement of meshes without the need for UV mapping.

In addition to the audio reactive effects, the pack includes some utility blueprints for audio capture and playback, offering even more versatility and creative potential. Whether you use the effects straight out of the box or explore the endless possibilities through experimentation, Audio Reactive FX 02 will elevate your music videos to the next level.
