CM – Rawkner Font 6763025: Rawkner is a sans serif typeface. It is inspired by the ink trap. The basic idea is the letter "W" and "K" The other letters represent both. Four styles are available: round, regular, oblique, and round Oblique.

Rawkner is ideal for headlines and subheadlines. There are different glyphs you could choose based on the requirements of your project. The ligature of lowercase and uppercase characters makes it more precise. Rawkner is an option you can try in your next creative endeavor.

- Uppercase and lowercase
- Punctuation and symbols
- Stylistic Set
- Ligatures
- Characters from all over the world (Multilingual)
