Arseniy Prusakov – WEDDIN PACK (2022): An assortment of loots (color profile or filter)

This is an original author's set with color-coded profiles that are unrivaled and available.

I've been making these loots over the last two years. They processed my photos throughout this period.

- Every loot is different and has its distinct color and chip
- Seven colors and 21 BW
- It is installed on both Mac as well as Windows
- The Loots are universal and can be used for all camera models
- It is possible to work using both RAW as well as JPEG
- Suitable for Lightroom, Photoshop, and Camera RAW

includes

What is a Weddin Pack

A "Wedding Pack" typically refers to a collection of resources, templates, and assets designed to assist with planning and creating various aspects of a wedding. These packs are often curated and created by designers, event planners, photographers, and other professionals to provide a range of materials that can help make the wedding planning process
