Multiton Bits ACdrums, Beats, and FX: ACdrums Beats and FX is a collection of Acoustic drum sounds recorded with a vintage 1970s Ludwig Drum set and two different snares. Toms and kick sounds were samples from Ludwig, and snare sound samples originated from steel pearls and a wooden Sonor snare. We also have added some percussion, congas shakers, guiro, etc. The main goal of this project was to capture the spirit of retro and big-sounding Acoustic drums and edit sure of them with external effects and even guitar pedals to achieve the perfect mix of modern and vintage drum sounds. We've made 46 one-shot samples, played as well as programmed, and played 119 loops to produce dynamic and warm-sounding beats and samples.

These drum tracks are a great choice in any production that includes soul, funk, and hip-hop with a low-fi sound to dub indie rock and everything else. We hope you appreciate them as much as we do when editing, sampling, and playing with these drum samples. Look into ACdrums, Beats & FX, and add a live feel to your songs!

- **Contains:** Drums & Percussions
- **BPM:** 90
- **Audio Resolution:** 24 Bit / 44.1 kHz
- **Requirements** For WAV files, you require 24-bit WAV-compatible software, basically any editing software for audio or video. Software.
