

## Pro EDU – Depth Of Field Smoke Overlays

2025-02-10 16:52:48 [label 我要反馈](#) [下载页面](#)

**Pro EDU – Depth Of Field Smoke Overlays:** "Depth of field" is used in photography to define the space in front and behind the object, which appears to be sharp or even in focus. It's also referred to as the range of focus or the zone of sharpness. These overlays can enhance the depth of your photos and create surreal scenes by blurring specific areas with fog or smoke effects.

Create depth and an atmosphere that is surreal with this 110 Smoke & Atmosphere FX Overlays. The Depth of Field FX Pack offers an infinite number of possibilities for post-processing. It is available in 5,760 pixels across the most considerable Edge and JPEG formats. The overlays are very easy to apply and integrate into any image composite.

These overlays are ideal for adding smoke effects or fog-like atmospheres. They can be used to create images that will astonish anyone who views these overlays!

Please make the most of your photos by following our step-by-step guide, and download this pack now! It's an excellent way to get your photos noticed from the rest and be noticed on the internet. Your photos will be featured across social media in no time!
