- Instant results.
- 9 Beautifully fast and elegant animations.
- Well-balanced and easily read cuts.
- Fully automated.
- Override any other random parameter.
- Three audio track syncing mode.

New Changes:

- New: Speech Mode. When loading an audio track, the script detects if speech from Layer Force is present and lets you choose to enable Speech Mode. It cuts text accordingly to pauses when animating. Load the audio again or Unload to disable it.
- Fixed: script not working when position dimensions are separated.
