App Promo Phone 14 - AE Project VH-43146803: The App Promo Phone 14 is a tidy and well-organized After Effects template featuring a flat design, digitally appealing text layouts, and smooth changing effects. Display your application professionally and visually stunningly using the App Promo Phone 14 Pro After Effects template. The template features a full HD resolution and the ability to create a modular design, control of color, and custom smartphone-specific scenes with deep black and purple. There are no plugins to install, and it's suitable for After Effects CS6, CC, and higher. The template includes universal expressions and an additional font after purchase. Create a stylish and contemporary video demo for the app effortlessly.
