Dome Light v3 Blender: Introducing Dome Light for Blender! This addon streamlines the creation of node worlds in Blender, offering convenient shortcuts to update your HDR environment swiftly.

New Changes:

- Support for multiple lighting environments
 - New modal menu (Ctrl + Shift + Right Button). Only view 3D
 - Now choose folders of images instead of individual files
 - Save your HDR folders as favorites
 - Option to rename environments and favorites
 - Mix HDR now supports individual rotation
 - Preview Settings in a separate panel for a cleaner interface
 - Support only for Blender version 4 or higher
-
- Shortcut for rotating the HDRI on the Z-axis directly from the 3D view using the default keys: ctrl + shift + alt + right mouse drag.
 - Option to adjust scene exposure directly within the addon.
 - Added shortcut to toggle background transparency on or off.
 - Interface enhancements for improved organization.
