Aescripts Permanent Markers for Premiere Pro:

Permanent Markers is a tool that exports still images from a timeline at each marker location, with options to filter based on marker colors.

include multiple file type options such as JPEG, PNG, and TIFF (with alpha channels), as well as resolution choices ranging from sequence to custom resolutions. Users can filter exports by marker color, select one or multiple colors, and limit exports to between sequence IN/OUT points. The tool also offers customizable file naming, allowing names based on marker or sequence names, and includes a naming template builder for flexibility.
