

Aescripts Wind v1.08 After Effects (Win, Mac)

2025-02-10 16:38:02 [label](#) [我要反馈](#) [下载页面](#)

Harness the Energy of Wind in After Effects. Works with any coating - text, vectors, video & form layers in native AE 3D area. Handles countless layers without a setup, click, and use.

Wind is a brand new instrument for After Consequences which simulates the natural movement of a breeze blowing off layers throughout the monitor.

Gfx plugin details of Aescripts Wind for After Effects

The product is in the **After Effects Plugins** category from **AeScripts**, for more information about this post, you can click on the home page link in the sidebar.

Does this product work on Windows and Mac Os? We mostly include the operating system in the title. If it is not written, it will work on Windows, and you can for the Mac version.

Wind isn't a particle system or even a search engine. When you click apply, it produces a string of null-based springs that command every active layer on your comp. Wind employs an exceptional algorithm to mimic many turbulence effects in native AE 3D space.

- 17 Presets
- Out & in Transitions
- 10 Instructions
- Secondary Drift Controls
- Dozens of Interpolation & Ease Form Options
- Intuitive Sliders
- Fade & Scale Transitions
- Auto Orient into Camera Choice
- Use Text, Vector, Video, Shapes, jpeg, ai, PSD.
- Utilize any number of layers (system dependent)
- Quick build and revive
- Carefully pick individual layers following the construct
- Global change adjustments via master coating controls
- Marker-based timing controllers
- Works together with AE2017 C4D renderer
- Deactivate turbulence to mimic mechanical movement effects.
- Effortless setup, click and go.
