INSTALLATION WALKTHROUGH

Installing presets for the first time can seem a little complicated, but it's actually pretty simple.

1) Unzip the preset files.

2) Locate the Lightrooms Presets folder.

On PC in Lightroom, select Edit --> Preferences

On Mac in Lightroom select the Lightroom Menu item --> Preferences)

With the Preferences window opens, select the presets tab, and then select "Show Lightroom Presets Folder"

3) Now drag your Preset Folders into their corresponding places. (ie Signature Edits Develop Presets gets moved inside of Lightroom's 'Develop Presets' Folder.)

4) Restart Lightroom. Your new presets will now load.
