What is Boutique Visual Aid PRO – High End Retouching Help Layers + Tutorial?

The "Visual Aid PRO action and script" enables users to separate images into distinct components related to color and light. This separation allows for a more granular and precise approach to image enhancement and retouching.

The toolset is designed to prevent over-retouching, which can sometimes result in unnatural or unrealistic-looking images. Users can fine-tune and control the editing process by working on each component separately.

"Visual Aid PRO action and script" is a valuable resource for photographers and retouchers who aim to achieve high-quality and professional image retouching results while maintaining control over color and light components. Users can follow the provided instructions and tutorials to master the use of these tools and enhance their image editing skills.
