If you're new to LUTs, don't be concerned. We've put together a guide on utilizing them in popular video editing programs like Adobe Premiere Pro, Final Cut Pro X, and Davinci Resolve.

SparkleStock LUTs have been enhanced by VOXCOLOR's SmoothTones algorithm, producing exceptionally smooth results that exceed the stress testing. They can be used on professional projects with confidence.

For footage that has people in it, choose this skin-protected option. These LUTs can be enhanced using the VOXCOLOR Skin Tone Protection that restores natural skin tones to the video you shoot. It eliminates the need to manually create the skin tone mask giving you stunning bohemian-inspired looks in only two clicks.

Are you using Lightroom? Presets for Lightroom is included. They have everything you need to make an excellent preset, such as compatibility with Lightroom mobile devices, support for Lightroom's brand-new slider for the number of presets, and speed-rendering profiles. The protection of skin tones is included in the Lightroom presets. The Lightroom + LUT combination is ideal for photo and video teams, allowing videographers and photographers to have the same look in their videos and photographs.
