MoBar is a set of time-saving tools all in one place to help you develop your ideas quickly and efficiently using Adobe After Effects.

A Time-Saving Solution For Motion Designers

You're quickly caught up in daily tasks and deadlines in today's hectic work environment. There's nothing more annoying than having to stop whatever you're doing to locate the right tool.

MoBar is a set of time-saving software in one location that lets you develop your ideas quickly and efficiently with Adobe After Effects. You don't have to switch between tools or fret about how long it will take since everything is precisely where you'll need it in your reach. It was designed to allow you to perform more quickly and efficiently than ever before.

MoBar is packed with all the tools needed to accomplish your everyday chores. The tools were designed using a minimalist approach to simplify things for you. It will be challenging to remember how you had to work without these.

MoBar's distinctive pop-up menu to gain additional workspace while focusing on the most important thing you do - your job.

You can find and download all the tools you require within seconds, including other effects and scripts inside After Effects, without any difficulty. If you require something, search.

Imagine reducing 10, 20, or even 30 minutes each day for the most basic tasks. This is precisely what MoBar allows you to achieve during your day-to-day tasks. You'll be able to save time, work quicker and more efficiently, and accomplish more.

There's something more irritating than not having crucial features in an application you use daily. MoBar was developed to fill those holes. It streamlines After Effects by putting the most essential tools available using a rational design.

New Changes:

- Display settings have been simplified for easier understanding.
- We fixed an issue with the Pre-Composition tool.
- A UI bug in horizontal mode has been fixed.
- They fixed an issue with the Camera Rig, causing some functions to fail.
- Fixed an issue with Find and Replace Expressions not affecting selected properties.
