Burlesque light Bulb Letters HD is the lighter version of the original design with a similar name. I received some feedback that it was a little demanding on PCs, so I've changed the version with 4K resolution (but it's still quite demanding) and made this HD version where all characters are in full 1920x1080 HD format. This is significantly faster than the 4k version, and the characters are high-quality, which means you'll be able to make fast rendering 4k videos using your own wording. If you want a more high-quality version, it is available in 6k-8k.
