Astra Image 6.0.1.0:

Astra Image is a powerful image processing software that enhances and sharpens photos using GPU-accelerated deconvolution and customizable blur kernels, making it beginner-friendly.

It features multiscale processing tools to fine-tune contrast, enhance structure, and sharpen edges.

The software offers advanced functionalities, such as Python scripting for further customization, allowing users to employ Python libraries, add AI enhancements, and utilize OpenCV functions.

Key features include wavelet sharpening, smart gamma enhancement, camera shake removal, edge-aware filtering, convolution filtering, and Lab adjustments, all designed for detailed image analysis and enhancement.
