Analogica Lab LUT Fuji 3513 35MM Film Emulation:

The "35MM FujiFilm Fuji 3513 Film Emulation LUT" is a professional color grading tool designed to recreate the authentic look of classic analog films.

Handcrafted by Italian colorist Analogica, these LUTs are ideal for photographers, videographers, and content creators seeking a nostalgic, cinematic touch.

Compatible with major editing software like Adobe Premiere, Final Cut Pro, DaVinci Resolve, Photoshop, and Lightroom, the pack includes one LUT for Rec709 color space and one for universal LOG.

Easily applied with a single click, these LUTs enhance digital shots with vintage color tones and shadows, perfect for cameras, camcorders, graphics, and artworks.
