下载页面

Burlesque Light Bulb letters are a set of letters, numbers, and symbols. All characters are in 3840x2160 UHD resolution. There are 4 light actions and 3 color options. You can also adjust the speed of light animation. There are also 2 frames in the project, each with 10 placeholders. The total number of placeholders is 20. You can create your own projects and use the high-quality animated burlesque light bulb elements to make your words. This project requires a lot of hardware! Also, I have a lighter version with all characters in FHD, not 4k.
