# World Map Globes Ultra (Videohive 51806410) - AE Project

2025-02-10 16:46:32　　label 我要反馈　　下载页面

The **World Map Globes Ultra** Generator is a comprehensive, high-quality map kit designed for After Effects CC 22 and above, requiring no plugins.

How to design a comprehensive map for your project using graphic elements in After Effects?

You can use "World Map Globes Ultra" to design your project.

It includes an ultra-quality map kit with detailed HUD graphics and displays, unlimited titles, text, and other graphic elements. The package features 120 country flags and maps, a zoom-in option anywhere on the globe, and full control over the globe, all presented in 4K resolution. Users can easily create various projects, such as travel promos and documentary graphics, aided by a four-part video tutorial. The kit includes music by AlexanderRufire and Lucafrancini and utilizes the free Montserrat font. The tool is user-friendly, catering to both beginners and advanced After Effects users.

Package information

The World Map Generator, published and last updated on 17 April 2024, is compatible with After Effects CC and includes After Effects project files.
