

## Microsoft Windows 11 Pro Enterprise 25H2 Build 26200.6584 VL x64 + Activator

2025-09-28 11:02:07    [label](#)    [我要反馈](#)    [下载页面](#)

**Microsoft Windows 11** introduces a range of updates and new features aimed at enhancing productivity, ease of use, and creativity. The redesigned Start layout, now centered, leverages the cloud and Microsoft 365 to display recent files seamlessly across various platforms and devices, including Android and iOS. Snap Layouts, Snap Groups, and Desktops provide powerful multitasking capabilities, optimizing screen real estate for a cleaner visual layout.

Integration of Chat from Microsoft Teams into the taskbar facilitates instant connections through text, chat, voice, or video across Windows, Android, and iOS. maximizes system hardware potential for gamers with DirectX 12 Ultimate for immersive graphics, DirectStorage for faster load times, and Auto HDR for vivid color ranges. The introduction of Widgets offers a personalized feed powered by AI and Microsoft Edge, providing curated news, weather, and notifications directly on the desktop.

The Microsoft Store undergoes a significant overhaul, offering a unified location for apps and content with a new design focused on speed and simplicity. The inclusion of Android apps, accessible through the Amazon App Store, expands the app ecosystem. **Microsoft Windows 11** maintains compatibility with existing Windows 10 investments, ensuring a smooth transition and supporting a hybrid work environment. It brings innovations to enhance end-user productivity while retaining familiar features and security settings. Additionally, advancements in device management, including Windows Autopilot and compatibility with newer features like Azure Virtual Desktop and Windows 365, contribute to the modernized **Microsoft Windows 11** experience.

### Key Features of Microsoft Windows 11 :

1. Redesigned Start layout with a centered Start button
