Animal Character Animation Explainer Toolkit - AE Project VH-33034688: The Animal Animation Explainer Toolkit (AUT) is a groundbreaking product. After Effects allows you to design animated animals, create explainer videos and pick animations.

Over a year of intensive research, thousands of features were developed. The future of animation and character design for animals will be different.

Character Studio

The most powerful character creation program on the market allows you to create unique animal characters. You can easily create animal characters using a single panel of intuitive controls, such as sliders and checkboxes.

More than 30 pre-made animal characters are included. You can start with any of these characters or customize them to make your own.

- Modify all body proportions and character length.
- Modify the torso shape, thickness, and roundness.
- You can add tails and resize, rotate, or reposition them.
- You can easily add a texture to the belly and reposition it over your character.
- You can make each character stand out by using different animal textures. You can reposition, rotate, scale, and scale the textures. They are available for legs, arms, and even the face.
- Use the included hand rig to modify your hand size or create 50 different hand poses.
- You can choose any type of leg. You can modify the size, height, and position.
- You can change the size and color of your feet. You can choose from a variety of styles for your feet or create your own.

Head Design Studio

This is the most advanced package for head design.

Control of the head

This unique system allows you to control both the head and chin separately. You can adjust the head width, height, roundness, and more. Any head shape is possible!

Additional head features

- You can choose from a variety of hair styles.
- Individual size and color control for pupils and outer eyes.
- You can choose from 21 different noses. Modify size, color & position.
- There are many styles of whiskers to choose from.
- You can choose from 8 different textures for your face or create your own!
- You can easily reshape your eyes by rotating the upper and lower lids. You can also modify the right and left eyelids individually.
- 12 ear styles are included. You can rotate the ears to animate the character.
- Full control of your mouth. You can change the size, color, and position of your lips, tongue, teeth, and inner mouth.
- It comes with an intuitive mouth animation rig that allows you to choose from a variety of pre-made animations.
