3ds MAX – Hair Cards Tool: Introducing the HairCards Tool, a time-saving 3ds Max plugin designed to streamline hair creation for real-time rendering. With this tool, you can generate layers of hair more efficiently than ever. This tool is compatible with 3ds Max 2021.3 (Update 3) and above, which is essential for speeding up your workflow.

The Standard variant of the tool includes the tool itself without any additional textures or materials. For commercial use, the package will also include:

- A comprehensive set of materials filled with hair textures
- The 3ds Max scene utilized in the demo videos
