Artstation - Industrial Maker 240 OBJs and 254 ZBrush IMM Brushes

2025-02-10 16:45:02 label 我要反馈 下载页面

Artstation - Industrial Maker 240 OBJs is a comprehensive 3D asset pack for industrial and sci-fi scenes. It contains 240 OBJ files for various pipes, valves, tanks, and accessories. Additionally, there are 254 ZBrush IMM brushes for detailing. The assets work well with spaceship engine rooms, factories, urban scenes, etc. The pack includes an OBJ index and a video tutorial for more straightforward navigation. It works with all 3D applications that support OBJs. ZBrush 2021.6.6 and above is required for the brushes.
