This Photoshop action is created to transform your image appearance into Ice and Crystal effect fragments appear. This professional-grade pack can transform your everyday photos into stunning photographs. It is easy to use, and you can utilize any color to paint the layers. The action has been tested, and is running with Photoshop CS6 - CC+ Check out the video tutorial below.

Features: It comes with three built-in actions that allow you to aid in creating the ideal layout for your work. It offers 5 different colors that you can choose from, and it is easy to click one button without hassle editing. It comes with 2 glow effect options to help you get the best effect and another to eliminate this glow. It comes with 2 options for fragments to help you create the perfect design for your job. It offers two Dust Options to help you create the perfect design for your job.

It is simple to use. Different results each time. Non-destructive effect. Layers are well-arranged. Layers can be rearranged. It works with the following versions: CS6, CC+ Works only with only the English version of Photoshop due to the name conventions for the layers. Preview images are included.

Have you encountered issues or an error in having issues or errors with the Action? Make sure you have the correct configuration of your file in the "Installation manual" folder. This will prevent errors and will also produce better outcomes. If you're still stuck, please contact me with a photo of your entire Photoshop interface, including the area where the error appears. Also, let me know the version of Photoshop you're using so that I can assist you quicker.
