**3D Travel Map (Videohive 45635158):** Create stunning map animations of your journey in seconds.

You can select from six maps covering the globe and separate continents (worldwide, south and north of the Americas, Asia, and Africa). Don't you like pre-made map presets? Upload a custom image to make your personalized map for projects related to hunting for treasure, camping, or road journeys. The map can be customized: colors, camera position, angles, title iconography (airplane or vehicle), and much more.

It doesn't matter if you're a professional video editor for a travel show, a social media influencer who shares the best travel tips on Instagram, or just someone who would like to keep their family members or friends informed about your adventures on vacation. You'll need this map tool for DavinciResolve.

Don't pass up this chance to take your travel video up a notch. Video tutorials for step-by-step procedures are included and available in studio and free versions.
