Unreal Engine - Modular Soldier Pack Vol. 1:

Dive into a world of endless possibilities with this modular soldier pack, designed to empower you to create a diverse array of elite military units from around the globe. With a sophisticated material system and 19 premade color and camouflage presets inspired by real special forces, customization has never been easier.

The character is meticulously divided into 7 sets, including face and arms, pants with boots, jacket, gloves, unloading gear, pouches, and headgear, allowing for precise customization of each component. High-detail meshes and textures ensure compatibility with both high-quality games and cinematic projects.

Compatibility is seamless with the Modular FPS Arms Pack, while animation and rigging are standardized using the UE mannequin, enabling effortless integration of animations from the marketplace or Epic's free animation starter pack.

The smart material system allows for independent customization of each set, with options to adjust colors and camo patterns using presets or creating your own unique combinations. The package includes 10 modern army camouflage textures from around the world, as well as patches representing 7 countries, each with 4 variations.

- Deep modular outfits and equipment
- Showcase scene for easy customization
- 154 material presets for instant customization
- Smart materials system for outfits and patches
- 10 ready-to-use camouflage patterns
- Detailed mesh and textures with optimized performance
- 8 ready patches presets for various countries
- Various pouch presets for vests, warbelts, and groin pouches
- Head variations including options without balaclava and with blink shapekeys
- Pouches for M4 and AK magazines

Explore the depths of customization and create your ultimate squad of soldiers with this comprehensive modular soldier pack.
