**Virtual Studio Set 677 - AE Project VH-32929279:** The project was tested rigorously before the release, and the creator is considering the user's needs as possible about the layout. It's not only a model of a scene. It includes several camera motion lenses and a reasonable and adequate news program editing and is well worth looking into.

### Requires Plugins:

It is the 3D virtual studio that runs on After Effects which requires the use of the plug-in "Element 3D". If you don't already have the plugin "Element 3D", please don't purchase this product.
