This kind of motion is great for tracking. The **training video on track** is contained within the file.

This Template includes an After Effect project file with customizable animations as well as
Pre-rendered elements in the format mp4 are able to be used in any editing software using blending options like [screen] or [add] and have a 15-second duration that is easy to loop.

This Pack is ideal to use for **Science-fiction** cyberpunk. **high-tech** productions such as the futuristic intro to your opening. Projects that deal with cyber security such as hacking, esports as well as hologram effects, and Cyber UI infographics.

Inspired by **the hologram** technology scenes from blockbusters such as the iron men, the blade runner ghost in the shell, and iron men.
