

TMS FNC Cloud Pack v3.2.1.0 (17 Jan 2025) for Delphi & CB 10-12 Athens Full Source

2024-12-18 23:03:15 [label](#) [我要反馈](#) [下载页面](#)

TMS FNC Cloud Pack provides universal Delphi and C++ Builder components for seamless access to various cloud services, including Google, Microsoft, and PayPal. Compatible with VCL, FireMonkey, and TMS WEB Core, it supports cloud file storage (Google Drive, OneDrive, DropBox), payment services (PayPal, SumUp), translation services (Google Translate, Microsoft Translate, IBM Watson Translate), and more.

The pack features an easy-to-use design-time editor (TTMSFNCRESTClient) for configuring and testing REST requests, enhancing productivity. With a single high-performance codebase for multiple platforms, it efficiently connects with a broad range of cloud services, such as Google Tasks, Microsoft OneDrive, Apple CloudKit, DropBox, PayPal, YouTube, and many others.

Developers can leverage to create custom REST service clients, supporting various request types and offering features like multi-part form data support, OAuth 2.0 authentication, URL encoding, JSON parsing, and file to Base64 encoding. This pack streamlines the development of applications interacting with diverse cloud services.

Key Features of TMS FNC Cloud Pack :

1. Universal Delphi and C++ Builder components
2. Seamless access to cloud services, including Google, Microsoft, and PayPal
3. Compatibility with VCL, FireMonkey, and TMS WEB Core
4. Supports cloud file storage services: Google Drive, OneDrive, DropBox, Box.net
5. Cloud payment services integration: PayPal, SumUp
