How to use LUTs for natural-looking and professional lighting for movies?

You can use "Film Space – Justkay Blackmagic Gen 5 LUTs".

Where can I download the product?

After subscription, You can download it for free from here.

These Professional LUTs are designed to bring vivid cinematic color to your Blackmagic Film. The pack includes five different CUBE files that can be used in any lighting scenario. These LUTs preserve color integrity and provide uniform consistency across all your videos. Accurate color-correct skin tones create an aesthetically pleasing, cinematic appearance.

The pack contains ten files. Five files are loaded directly into your Blackmagic camera, and five files will be used for post-production RAW editing. They are:

- JustKay Blackmagic Gen 5 I
- JustKay Blackmagic Gen 5 II
- JustKay Blackmagic Gen 5 III
- JustKay Blackmagic Gen 5 IV
- JustKay Blackmagic Gen 5 Blue Hour

Each LUT can be loaded in your Blackmagic camera to expose correctly at work. The identical LUT is then applied with a single click post-production.

Cinematic Footage in One Click

You can cut down on the time you're glued to your computer, trying to keep track of everything. If you're starting to achieve your stripes, Our simple drag-and-drop tools will simplify your creative process.
