

Aescripts Quick Delete & Reset v1.1.3 Full (win, mac)

2025-02-10 17:12:29 [label](#) [我要反馈](#) [下载页面](#)

Quick delete, Delete, Reset, or Enable different Facets of a coating with only a single click.

The way to use it?

Select one or several layers at the timeline and Click one of these buttons

- **Delete Keys:** Deletes each of the keyframes of a coating. The layer's possessions are going to continue to keep the values, they had in the present moment. Therefore move the present time index in the timeline to the desired location, before deleting the keyframes.
- **Delete Effects:** Deletes all of the effects, which have been applied to a coating.
- **Delete Masks:** Deletes all of the masks of a coating.
- **Publish Layer Markers:** Deletes all coating markers.
- **Delete Expressions:** Deletes All of the expressions of a coating.
- **Disable Expressions:** Disables all of the expressions of a coating.
- **Enable Expressions:** Lets each of the expressions of a coating.
- **Reset Transformations:** Resets the conversion properties of a coating to their default values.
- **Reset All:** Deletes all of the keyframes, masks, effects, expressions, and markers of a coating and resets the conversion attributes to their default values.

Design

The script design is completely responsive. The button Positions will adapt, as you change the window size. Additionally, it is possible to select which buttons are going to appear from the toolbar, and also you have the choice to change from icon buttons into buttons.

- Delete all Keyframes
- Publish all Effects
- Publish all Masks
- Delete all Layer Markers
- Delete all Expressions
- Disable all Expressions
- Permit all Expressions
- Reset Transformations
- Reset All
- Settings
