We're calling this the Dolce LUT Collection. In songs, dolce (noticeable DOL-chay) is an Italian word that indicates "wonderful". When developing this LUT, we intended to develop try to find you that really feels really true-to-life, yet far more refined and "sweeter". This shade pack is full of abundant eco-friendlies, deeper blacks, crisp whites, as well as soft highlights. We placed this LUT to the examination and have enjoyed seeing it "sweeten" video footage from all situations - extreme light, well-balanced light, exterior and interiors, video footage with several skin tones, and naturally on footage from throughout the globe from lots of filmmakers.

As constantly, we've checked them across several electronic camera bodies such as Panasonic, Sony, Canon, and also even Red to make certain that they are standing well across the board. This LUT pack comes with 4 new colored looks as well as 2 black and white looks.

SIGHT EXAMPLES OF EACH LIST BELOW

We've developed these LUTs to help your color grading procedure end up being simplified, less time consuming, and constant, all while creating an excellent quality feel for your footage.

DOLCE LUT 01

Features warm complexion, desaturated shades, brighter highlights, and also darkness. This LUT is developed to be a fundamental go-to that leans in the direction of a mix of a cooler environment attached to warmer skin tones.

Functions well in intense atmospheres as well as mixed lighting circumstances.

DOLCE LUT 02

This designation has a warmer and also extra saturated shade palette. With strong shades, particularly reds, and a deep gradient of environment-friendlies, this LUT permits things to look true-to-life, while still maintaining your complexion undamaged, yet likewise providing a cinematic layer that protects the natural colors, as well as environment-friendly tones, that exist in nature.

Functions well in blue hr lights along with vivid color locations.

DOLCE LUT 03

This coloring leans towards an extra blue/green range, with a general leaning towards cooler tones. With the highlights of the whites coming through, this palette enables greater comparison to stand out.

LUTS

平面设计

Functions well in also lighting and also overcast as well as moodier lighting circumstances.

DOLCE LUT 04

This appearance is rooted more in a movie (Fuji 400H) feel, with highlights that tint towards magenta.

This look is designed to work well in full sun and also brightens and warms up skin tones to have a creamy tone that is welcoming but likewise refined.

DOLCE LUT 05

This B&W quality is created to highlight a more timeless tone, with a tribute to the TRI-X movie. Utilizing your editing system, you can additionally include grain to fit your preference as well as to produce a motion picture appearance that is rooted in the black and white movie, as well as a motion picture background.

Functions finest in shots with underexposed tones and also landscapes.

DOLCE LUT 06

Using a more recent handle a B&W quality, this range is designed to have more crushed highlights and also deep blacks to offer higher contrast but to provide a much more contemporary approach to black and white grading. The instructions of this LUT are matched to supply a quality that is modern, tidy, and to get rid of distracts from highlights for a much more spiritual feeling.

Functions ideal in situations where the light is bright or where you desire an even more contrast-filled appearance.

What is Dolce LUT Collection?

this collection is designed specifically for wedding filmmakers and offers a range of color presets to enhance wedding video footage. The collection aims to provide a variety of shades and tones that can be applied to wedding films to achieve different moods and looks, from warm and lively to cool and dramatic, with an emphasis on rich, cinematic colors.

LUTs like these can be valuable tools for wedding videographers and editors to help create a consistent and visually appealing style throughout their wedding videos. Wedding cinematography often involves capturing a wide range of lighting conditions and settings, so having a versatile LUT collection can be beneficial for achieving the desired aesthetic.

If you have access to the Dolce LUT Collection from White In Revery, you can typically apply these LUTs in video editing software to enhance and stylize your wedding video footage according to your creative preferences and the specific mood you want to convey in your films.
