HOW TO USE TEMPLATE?

I have tried to keep it as simple as possible for Editing. Please read below:

- 1. Navigate to the folders on the left side of the project window.
- 2. You can easily change colors GLOBALLY by navigating to the Folder that says "Color" in "2. Edit" Folder and click "Global Color Controller," double click to open the comp, then open it by clicking the small arrow icon next to it, then change the colors by clicking the desired names and changing the color swatch.
- 3. You can easily change colors LOCALLY by navigating to the Layer that says "Settings," open it by clicking the small arrow icon next to it, then further open to see Expression: Color, and next to it is an "equal to" icon (like this =) click it and overrides the GLOBAL COLOR SWITCH, change the colors by clicking the desired names and change the color swatch next to it.
- 1 HUD Info Military Interface
- Created using After Effects CC 2019
- 50+ HUD Elements
- 100% After Effects
