Vmats 1.5.9:

VMATS is a comprehensive and high-quality material library for Blender, offering a vast collection of materials optimized for both Cycles and Eevee render engines.

It features 3,574 materials, categorized for various use cases like Car Paint, Wood, Fabric, Glass, Metal, and many more, with each material designed for realistic rendering. VMATS provides an intuitive interface that simplifies the process of browsing, previewing, and applying materials to projects, saving time and allowing users to focus on the creative aspects of their work.

- **High-Quality Materials:** 3,574 materials across 21 categories, optimized for both Cycles and Eevee.
- **Realistic and Physically Accurate:** Materials are physically correct, with support for advanced rendering features like refraction, dispersion, and **fresnel**.
- **Highly Customizable:** Each material has unique parameters for easy identification and customization.
- **Optimized for Fast Rendering:** Materials are designed for efficient performance without sacrificing visual quality.
- **Seamless Textures:** Textures in resolutions ranging from 2K to 4K.
- **Clear Interface:** Easy-to-use, well-documented, and organized interface, integrated directly within Blender for smooth workflows.
- **Asset Browser Compatibility:** VMATS integrates seamlessly with Blender’s Asset Browser for quick material assignment.
- **Advanced Material Types:** Includes support for advanced shaders like Anisotropic Shader, Parallax Occlusion Mapping (POM), and Fake **Caustics** for high realism.
- **Specialized Nodes:** Includes nodes for Car Paint, Skin, Hair, Flame, and more, offering a rich set of options for complex material setups.

VMATS is a go-to solution for Blender users seeking an easy-to-use, realistic material library that accelerates the workflow while ensuring high-quality visual results.
