**Midellion Script Font 2696767:** Let's introduce you to The Midellion. A handwritten script that is narrow and has a modern design and built-in Opentype features. The font has multi-language support and different swashes. They are included within the private use area, which allows you to access them quickly, even if your program doesn't recognize OpenType.

Midellion is perfect for numerous projects, such as headers for blogs or magazine posters, wedding branding packaging, logo, clothing, fashion letters, invitations, stationary, photography, quotes, watermarks, etc. Also, it is perfect for writing in the signature handwriting style.

The font is smooth in texture, making it ideal for printing techniques like laser cutting, embroidery, or gold foil.

### Midellion includes three fonts:

- Midellion Midellion - A handwritten script font with upper and lowercase characters, numerals, punctuation marks, OpenType feature, and multilanguage (ligature smallcap, swash)
- Midellion Smallcaps – Containing smallcap glyphs (The alternate to access small-caps feature for folks without opentype capable software)
- Midellion Swash – Includes 52 hand-made swashes
