Daily 3D Art Experiment using Cinema4D / Octane Render / AE: Welcome to this class, where you'll learn how to craft a captivating cinematic artwork using a 3D ice cube in Octane Render, seamlessly integrated with a 3D phone model.

Throughout this course, I'll guide you through the following lessons:

- Introduction
- Finding Resources (3:14)
- Cinema4D Project (5:23)
- After Effects Screen Animation (7:35)
- Creating a 3D Ice Cube (6:09)
- Octane Light Setup (9:38)
- Final Render (5:21)
- Final Color Adjustments in AE (3:51)

You'll discover where to locate essential resources and create an animated texture and text to enhance the 3D phone screen. In Cinema4D, you'll master the creation of an ice cube and execute the lighting setup to achieve a cinematic look. Finally, we'll finish the project in After Effects, refining the final render with color adjustments.

Join me on this exciting journey as we blend technical expertise with artistic creativity to produce stunning cinematic artwork. Let's get started!
