Christmas Characters Toys for After Effects:

This is a festive After Effects template featuring photorealistic stop-motion animations of holiday characters like Santa, gnomes, elves, snowmen, and plush toys. Each character unfurls from a crumpled paper ball, adding a playful and magical touch to any project. With a resolution of 4096×2304, full-color controls, and video help, this template is ideal for holiday promotions, Christmas greetings, New Year's social media posts, kids' content, holiday invitations, and seasonal marketing.
