Aescript Smart MediaComp Automator v1.0.4:

The Smart MediaComp Automator is a powerful tool for Adobe After Effects, designed to enhance productivity by automating the integration of media and text across thousands of compositions.

Tailored for high-efficiency workflows, this tool simplifies the process of creating 4K videowalls, applying consistent text styles, and adding dynamic animations. It helps users save time, streamline complex tasks, and achieve professional results effortlessly.

- Unlimited Media Application:**
Integrate unlimited media across thousands of compositions with a single click, significantly reducing repetitive tasks.
- Effortless Text Integration:**
Design and apply the text in one composition and instantly update it across multiple compositions to maintain consistent styling.
- 4K Videowall Creation:**
Create impactful 4K videowalls by automatically arranging and sizing compositions with one click, ideal for professional displays.
- Dynamic Animations:**
Choose from six pre-set animation styles, including Scale In, Scale Out, Scale and Rotate, Position Up, Position Down, and Auto-animate, to add engaging motion to your layers.
- Easy Layer Management:**
Simplify project organization by removing all layers from selected compositions with a single action.

Benefits:

- Boost Productivity:** Automate repetitive tasks to focus on creativity.
- Save Time:** Instantly apply changes across multiple compositions.
- Enhance Quality:** Create professional, visually captivating animations with ease.
