You will get 14 brushes for Procreate mindfully crafted for Painting

I have been fighting with Procreate because I got it, Back in 2016, do not get me wrong, it is a great powerful instrument, but any time that I tried it, I ended up wasting my time looking for a brush that could do what I had in mind. And that has not never been the situation, in all this time, after trying and trying, most of the tens of packs you will discover online.

So I decided to make my very own and that is the outcome. I used My favourite Photoshop brushes at the beginning point and built them out there. Should you Come from Ps you will likely find a few -really desired - similarities. I didn't Include a few I really do believe essential like a large soft palate or Something for suitable drawing, Procreate has those natively. I have a couple of Procedure videos where you can view
