JixiPix - Spektrel Art v1.1.20 (Win, Mac):

Spektrel Art is a mesmerizing artistic medium that transforms ordinary photos into otherworldly displays filled with vibrant, undulating movements and sparkling intersecting lines of tapered light. This innovative art form transcends the mundane, allowing users to create imaginative imagery that is both wild and alive, featuring a library of presets that showcase its potential. With customizable settings, users can manipulate various aspects of the artwork, such as color, light intensity, and line details, resulting in infinite variations of luminous and ethereal designs.

Art Styles:

- **Light Style:** Glimmers with white tapered light.
- **Dark Style:** Creates stark contrasts with black intersecting lines.

Presets: Includes a variety of presets to kickstart creativity.

Customizable Sliders:

- **Detail Slider:** Increases the amount of intersecting lines.
- **Glow Options:** Adds colorful edges and brilliance.
- **Taper Length and Sharpen Sliders:** Enhances the twinkle effect.
- **Lighten and Brighten Sliders:** Increases illumination.
- **Edge Detail Slider:** Exaggerates line prominence.
- **Smoothing Slider:** Softens lines for a gentler appearance.
- **Color Boost:** Enhances overall color vibrancy.
- **Brushes:** Allows for softening or removing effects.

Versatility: Infinite variations of illuminated twinkles, fluid lines, and ethereal softness.

High-Resolution Support: Compatible with high-resolution images for detailed output.

User-Friendly Features:

- Multiple undo functionality.
- Randomize button for unique adjustments.
- Quick previewing capabilities.
